I am writing to request that you the FCC reject the NAB's petition 04-160. My husband is an avid listener to satellite radio. I purchased this for him at christmas because he is a truck driver. Being on the road driving all the time can make a sane man insane, but since starting to listen to xm radio he has begun to once again love his job over the road. It can be quite boring driving all those hours on our nations highways but this helps him to pass the time by. He loves the fact that he isn't always listening to the same things over and over again, and also that he feels more informed about what is going on in the nation.DON'T TAKE SATELLITE AWAY!!
Sincerely yours
a concerned wife
